#### 4. REVIEW OF PERFORMANCE

The financial statements are prepared in accordance with Financial Reporting Standards and are expressed in Singapore dollars.

- (a) The Group registered a net profit after tax of \$281 million for the first quarter ended 31 March 2003 ("1Q 03"). The decrease in net profit of 11.2% as compared to the first quarter of 2002 ("1Q 02") was mainly due to higher provisions and lower share of profit of associates, partially offset by higher other operating income.
- (b) The Group's operating profit, before goodwill amortisation and provisions, increased by 14.7% over 1Q 02 to \$519 million in 1Q 03.

The Group's operating income grew by 7.5% from \$730 million in 1Q 02 to \$785 million in 1Q 03. The growth was largely contributed by higher other operating income resulted from higher profit on foreign exchange and higher gains on sale of government securities, as well as higher fee and commission income mainly from investment-related and loan-related activities. These were partially offset by lower net interest income mainly due to lower contributions from inter-bank money market activities as a result of the low and flat interest rate environment.

Group operating expenses comprising staff and other operating expenses decreased by 4.3% from \$277 million in 1Q 02 to \$266 million. Staff expenses decreased by 14.5% to \$132 million mainly due to the reduction in headcount as a result of streamlining initiatives and the integration of operations, while other operating expenses increased by 8.5% to \$134 million mainly to support increased advertising and promotion activities and IT-related maintenance. These were partially offset by lower depreciation of fixed assets and lower rental expenses. Consequently, the expense-to-income ratio declined from 38.0% in 1Q 02 to 33.8% in 1Q 03.

- (c) The increase in provision charge from \$10 million in 1Q 02 to \$90 million in 1Q 03 was mainly due to higher specific provision for loans necessitated by the difficult and uncertain economic conditions, as well as lower collateral value in a lacklustre property market. In addition, provision was also made for investments and restructured debts as against a write-back in the same period last year.
- (d) Share of profit of associates (before tax) dropped by 94.1% to \$3 million, mainly due to a one-time exceptional gain recorded by United Overseas Land Limited arising from the sale of Tiong Bahru Plaza retail mall in 1Q 02.
- (e) The Group's net loans and advances decreased marginally by 0.4% to \$59,193 million as at the end of 1Q 03 from \$59,460 million as at the end of 1Q 02. Group non-performing loans ("NPLs") fell by \$353 million or 5.9% to \$5,669 million as at the end of 1Q 03 as compared to \$6,022 million a year ago. Correspondingly, Group NPLs (excluding debt securities) as a percentage of gross customer loans decreased by 0.6% point to 8.9% as at the end of 1Q 03. Of the total Group NPLs of \$5,669 million, \$3,044 million or 53.7% were secured by collateral, and \$3,615 million or 63.8% were in the Substandard category.
- (f) Total cumulative specific and general provisions for the Group increased by \$146 million or 4.3%, from \$3,385 million as at the end of 1Q 02 to \$3,531 million as at the end of 1Q 03. General provision was \$1,427 million or 40.4% of total cumulative provisions. The total cumulative provisions provided 62.3% coverage against Group NPLs, an increase of 6.1% points over the 56.2% as at the end of 1Q 02. For NPLs classified as Doubtful and Loss, the provision coverage stood at 171.9% as at the end of 1Q 03 as against 176.9% a year ago.

(Incorporated in the Republic Of Singapore)

- (g) Total assets of the Group decreased by 2.6% to \$107.4 billion, while the shareholders' funds of the Group increased by 1.3% to \$13.0 billion.
- (h) The Group's Capital Adequacy Ratio ("CAR"), as computed under the Bank for International Settlements ("BIS") guidelines, stood at 15.4% as at the end of 1Q 03. This was almost twice the minimum requirement of 8% set by BIS. The CAR fell by 2.2% points from 17.6% as at the end of 1Q 02, resulted primarily from the redemption of US\$ subordinated floating rate notes in 2002.

Against a background of difficult conditions in many of the world's economies in the first quarter of 2003, the Group's performance reflected the resilience of its businesses and its ability to generate a reasonable return. The outbreak of the Severe Acute Respiratory Syndrome (SARS) has caused great uncertainty, especially in the regional markets. While we cannot fully anticipate the effects that SARS might have on the Group's businesses and financial performance going forward, our capital and liquidity positions remain sound and we are well placed to face these unique challenges.
